

► SilEnd

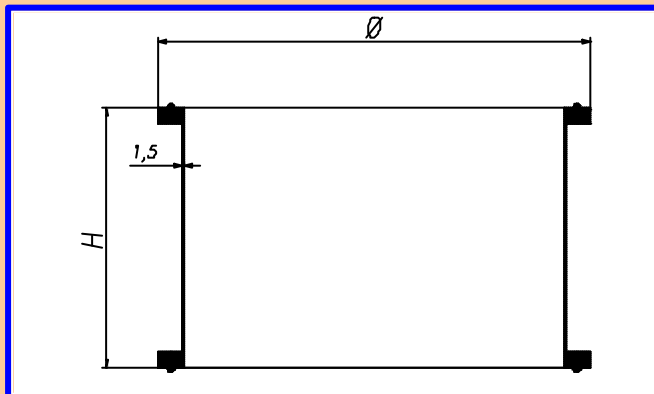

SilEnd is a flexible TC connection in transparent silicone (compound FDA 21 CFR 177.2600).

It is a sole part composed of hose and gaskets.

SilEnd is the perfect solution to realize a flexible connection between two rigid ferrules, powder and water tight.

It is perfect in case of vibration or when the two ferrules are not on axis.

The particular shape of our SilEnd is clearance free and can be cleaned in place or sterilized.

		Diameter Ø			
		4"	6"	8"	10"
